Hello,

Just fyi, Dewey Burdock ESA moving along. We have a meeting scheduled for next week to check in on this.

Thanks, Kimi

Subject: my review of Lynne's documents

I have attached my comments on Lynne's documents containing the various sections of the BA document. She wasn't sure the order the sections should go in; that is why she has the sections as separate documents. I have also included a BA template we found on the USFWS website. Part of the challenge for Lynne (and me, too!) is that the format in the BA template doesn't necessarily match the natural flow of information as we see it. Lynne also included an executive summary that is not included in the BA template. I think the executive summary is helpful.

I had written up a summary of the proposed action that I think should replace Lynne's sections 05_EPA_PERMITS and 06_PROJECT_DESCRIP.

Lynne numbered the sections in the order she thinks makes sense.

My suggested order is:

Cover

Executive Summary

Intro

Accounts_Species

Project Description

Consultation

I didn't make any edits to the two Effect sections. We would like some guidance on how to deal with the Effects section. Lynne was struggling with the ESA effects vs the NEPA effects, as you can see from these two sections. Let's talk about how the effects should be structured at our meeting. I am going to send another email on Effects after this one.
